

Free guide on how to book a crewed yacht.

You have worked hard for your vacation and it is important that it lives up to your expectations so you can re-charge your batteries and go home with lots of energy.

While the typical land/beach vacation is well known, how do you think it compares to the thrill of being pampered on a private crewed yacht with you as the only guests? Like 99% of the population you probably don't know, that there are thousands of private crewed yachts for charter in the Caribbean and worldwide, offering an exciting new way to spend a vacation with friends and/or family. So keep reading!

#1 Affordable and all incl.

- I know your first objection will be: "I don't have that kind of money!", but don't worry, this kind of vacation is no longer reserved for royalty and rock-stars, but can be done for the same price as a good resort or cruise ship. Prices start at **\$300/person/day including everything** from food to drinks and water sports . . . and your very own private chef!

You don't have to dive for your wallet every time you want anything and opening your credit card statements with shaking hands when you come home; **everything on-board is included** and tailored to YOUR wants and needs. No expensive day trips are needed and there will be no surprise bar bills. The captain will bring you to the next island and be your guide on hiking trips as well as snorkel excursions. And your private chef will pamper your taste buds according to your preferences! The itinerary as well as the menu is made to suit YOU!

#2 No Special Skills or Knowledge Necessary

- **You do not have to be a sailor** or know *anything* about boats to enjoy a vacation on the water! Modern yachts are very spacious and comfortable and you can have amenities like TV, iPods and Internet access like in any other hotel. The crews are used to introducing "newbies" to this new element and your comfort and safety is their highest priority.

We have clients from 6 months to 86 years old and they all have a great time. There can be as many or as few activities as you want and while one is snorkeling others can go kite-surfing or just relax. The key is that there is **something for everyone and** everyone gets what they want.

#3 The most customized vacation ever invented

- There is no doubt that a stay on a private crewed yacht will be the most individualized vacation you have ever experienced! First of all, you get to **choose your "Floating Boutique Hotel"** amongst hundreds of options. Yachts come in all sizes and we help you find the one that suits the size of your group and budget. When you choose the boat, **you also choose the staff** and where else can you do that?

Because we **have been based here in the Caribbean for more than 20 years**, we know conditions extremely well and will put all our knowledge at your disposal! You can center your vacation on learning to sail, kite-boarding, do an Italian cooking course or anything else you want. Just ask and we will make it happen! **The itinerary is open** to discussion with your captain every day. He knows the area and can guide you to all the right spots.

How do you arrange this amazing adventure?

So now that you have decided that YES, you deserve the best and YES this is a great price for such an experience, what's next?

There are hundreds of yachts just in the Caribbean, so how do you find the right one? If it was a normal hotel, you would just look at the photos, location and recommendations, but you wouldn't even think about inquiring about the staff, would you? However, on a yacht the skills and personalities of the crew are very important to the success of your vacation and we match you with the best. Do you want a 25 or 45 year old crew? Do you need a dive instructor? Are you bringing your Mexican grandmother and need a Spanish speaking crew? Is this a 3 generation family trip or a gourmet trip with friends?

You need a Charter Yacht Brokerage like AMAZING CHARTERS. We have used countless hours inspecting the boats and interviewing the crew so we can help you find the right solution. Don't start to surf the internet trying to locate the owners! They would all say they are the best no matter what and you would not have any choices. A broker has no vested interest in any particular boat and just wants to find you the right one . . . and this service is included in the price!

So the more you can tell the broker about your needs and wishes, the better. Almost anything is possible so don't hold back and let us know what you are dreaming of

Oh, and by the way, here is another freebie: Please join our FREE Facebook group <https://www.facebook.com/groups/crewedyachts/> where we share tons of insider information and where you can get answers to all your questions. See you there!

Best regards

Ulla Gotfredsen
